

INDEX

VOLUME 30

INDEX TO SCIENTIFIC PAPERS — 1979

SUBJECT INDEX BY SYSTEMS

Angiography

- Arterial dissection with use of catheter needle in retrograde femoral arteriography, (Bryk, Young, Roska, Moadel), 46
- Chemodectomas of the head and neck, (Gonsalves, Briant), 109
- Angiography of spinal osteoblastoma, (Banna), 118
- Arteriographic demonstration of extension of renal carcinoma into renal vein and vena cava, (Gildiner, Samu), 177
- Angiographic diagnosis of aorto-inferior vena caval fistula, (Tuttle, Kwok-Liu, Strasberg), 231

Arthrography

- Kyste du menisque interne du genou, (Vallée, Bovo, Pagacz), 228

Authors' Information (aux auteurs)

- Préparation d'un manuscrit pour la publication, (Jean), 2

Cardiovascular System

- Coarctation of the aorta: Additional signs, (Stern, Lander, Palayew), 40
- Cerebral aneurysms and cardiac myxoma, (Gonsalves, Ehrlich, Hudson), 124

Computed Tomography and Computers

- A modular computer system for radiologists, (Bray), 21
- Alveolar cell carcinoma on CT scanning: the air bronchogram sign, (Raval, Ahmad, Mathur), 64
- The spectrum of liver disease with CT, (Raval, Wan, Carey), 211
- Cerebral arterial ectasia on computed tomography, (Banna, Romeo), 259
- Gravity-dependent layering in a cystic teratoma, (Blend, Blankier), 261

Editorial

- Perspective for imaging in Canada, (Lentle), 5

Gastrointestinal System

- Flow-chart sequential cholecystography, (Mehta, Hynes, Osuszek), 23
- The ellipse sign: an aid in the diagnosis of acute ulcers, (Eisenberg, Hedgecock), 26
- Radioopaque suppositories mimicking bladder calculi, (Lesher, Scott), 54
- Hypogammaglobulinemia and nodular lymphoid hyperplasia of the gut, (Sauerbrei, Castelli), 62
- Congenital intrathoracic bronchopulmonary foregut malformations in childhood, (O'Connell, Kelleher), 103
- Abdominal biopsy with ultrasound guidance, (Wilson, Rosen), 138
- La cholangiographie transhépatique percutanée: une étude comparative, (Lacasse, Rosen), 150
- Gallium-67 citrate in detecting recurrent rectal carcinoma after abdomino-perineal resection, (Lentle, Dierich, Castor), 165
- Spasm in ulcerative colitis masquerading as carcinoma, (Munro), 171
- Oral water and intravenous glucagon, (Pon, Cooperberg), 173
- Ultrasound findings in small bowel infarction, (Cassoff, Collin), 180
- Abdominal hematomas in unusual locations, (O'Malley, Salem), 182
- Detection of abdominal abscesses, (Filly), 202
- The spectrum of liver disease on CT, (Raval, Wan, Carey), 211
- Quantitative of fat in liver by xenon uptake, (Sutherland, Palser), 216
- Radiologic staging of granulomatous enteritis, (Galluzzi), 233
- Fibrosarcoma of breast metastatic to stomach, (Meyer, Ostfeld), 265

Genitourinary System & Reproduction

- Lower urinary tract trauma, (LaVallée, Grégoire, Lapierre, Sylvestre), 49
- Radioopaque suppositories mimicking bladder calculi, (Lesher, Scott), 54

- Ultrasonic diagnosis of extrafetal masses, (Zaleski, Cooperberg, Kliman), 55
- Physiologic myometrial thickening: a source of confusion, (London, Filly), 57
- Urinoma diagnosed on bone scan, (Glazebrook, Lentle), 66
- Megacystis (prune-belly syndrome): sonographic demonstration in utero, (Cooperberg, Romalis, Wright), 120
- Abdominal biopsy with ultrasound guidance, (Wilson, Rosen), 138
- Percutaneous puncture of abdominal cystic masses in children, (Macpherson, Reed), 140
- Hydatidiform mole with co-existent fetus, (Wallace), 156
- Congenital lipoid nephrosis with left renal vein thrombosis and Chiari's syndrome, (Elliott, Grant-Tyrell, Ringer), 175
- Arteriographic demonstration of extension of renal carcinoma into renal vein and vena cava, (Gildiner, Samu), 177
- Cryptic cause of renal malrotation, (Cunat, Fletcher), 242
- Lymphomatous masses simulating cysts by ultrasonography, (Callen, Marks), 244
- Gravity dependent layering in cystic teratoma, (Blend, Blankier), 261
- Giant ureteral calculi, (Ostfeld, Meyer, Fagelman, Fagelman), 263

Lymphatic System

- Hypogammaglobulinemia and nodular lymphoid hyperplasia of the gut, (Sauerbrei, Castelli), 62
- Lymphangiomas in children: report of 121 cases, (Siegel, McAlister, Askin), 99
- Accidental intravenous injection of ethiodol, (Smazal, Brown), 170
- Giant lymph node hyperplasia of posterior mediastinum, (Hammond), 256

Mammography

- False negative mammograms causing delay in breast cancer diagnosis, (Burns, Grace, Lees, May), 74
- Percutaneous localization of non-palpable breast lesions, (Homer), 238

Neuro & Eye & Ear

- Diastematomyelia in a geriatric patient, (Wright, Gonsalves, Marotta), 59
- Brain stem tumors in children, (Shin, Fisher, Webster), 77
- Chemodectomas of the head and neck, (Gonsalves, Briant), 109
- Intracranial glass, (Gonsalves, Ehrlich, Hudson), 124
- Cerebral aneurysms and cardiac myxoma, (Gonsalves, Nidecker), 127
- Astrocytoma in children, (Shin, Webster), 167
- Cerebral arterial ectasia on computed tomography, (Banna, Romeo), 259

Pediatric Radiology

- Neonatal skeletal fractures: birth trauma or child abuse? (Cumming), 30
- Brain stem tumors in children (a review of 26 cases 1960-1976), (Shin, Fisher, Webster), 77
- Radiographic gradation of lumbosacral dysgenesis, (Azouz, Slomick), 90
- Lymphangiomas in children: report of 121 cases, (Siegel, McAlister, Askin), 99
- Congenital intrathoracic bronchopulmonary foregut malformations in childhood, (O'Connell, Kelleher), 103
- The double-headed femur — a complication of treatment of congenital hip dislocation, (Jequier, Rosman), 125
- Percutaneous puncture of abdominal cystic masses in children, (Macpherson, Reed), 140
- Astrocytoma in children, (Shin, Webster), 167
- Congenital lipoid nephrosis with left renal vein thrombosis and Chiari's syndrome, (Elliott, Grant-Tyrell, Ringer), 175
- Native children's lung, (Houston, Weiler, MacKay), 218
- Cryptic cause of renal malrotation, (Cunat, Fletcher), 242

Pitfalls to Avoid

- Radioopaque suppositories mimicking bladder calculi, (Lesher, Scott), 54
- Accidental intravenous injection of ethiodol, (Smazal, Brown), 170

- Spasm in ulcerative colitis masquerading as carcinoma, (Munro), 171
- Cryptic cause of renal malrotation, (Cunat, Fletcher), 242
- Lymphomatous masses simulating cysts by ultrasonography, (Callen, Marks), 244

Radiation Biology & Protection

- Variations in x-ray exposures to patients, (Taylor, Patt, Johns), 6
- Impact of physics on therapeutic and diagnostic radiology, (Johns), 192

Radiotherapy

- The design of clinical trials comparing pi-meson therapy with conventional radiotherapy, (Elwood), 79

Radionuclide Imaging

- Urinoma diagnosed on a bone scan, (Glazebrook, Lentle), 66
- Misleading skeletal surveys of prostatic carcinoma, (Lisbona, Palayew), 159
- Pulmonary embolism with unilateral lung scan defects and matching infiltrates, (Cavaluzzi, Alderson, White), 162
- Gallium-67 citrate in detecting recurrent rectal carcinoma after abdomino-perineal resection, (Lentle, Dierich, Castor), 165
- Quantitation of fat in liver by xenon uptake, (Sutherland, Palser), 216

Respiratory System

- Alveolar cell carcinoma on CT scanning: the air bronchogram sign, (Raval, Ahmad, Mathur), 64
- Congenital intrathoracic bronchopulmonary foregut malformations in childhood, (O'Connell, Kelleher), 103
- Intrathoracic desmoid at previous thoracotomy site, (Guisstra, White, Killoran), 122
- Primary pulmonary sporotrichosis, (Naimark, Tiu), 129
- Percutaneous pulmonary aspiration biopsy using the Chiba needle, (Hutton), 148
- Pulmonary embolism with unilateral lung scan defects and matching infiltrates, (Cavaluzzi, Alderson, White), 162
- Legionnaires' disease in Vancouver, (Hicken, Johnson, Gourley), 179
- Native children's lung, (Houston, Weiler, MacKay), 218
- Giant lymph node hyperplasia of posterior mediastinum, (Hammond), 256

Review Article

- Diagnostic imaging in diabetes mellitus, (Lipinski, McCreath), Ireland, 249

Skeletal System — Bones & Joints

- Neonatal skeletal fractures: birth trauma or child abuse? (Cumming), 30
- Giant-cell tumor of the sacrum, (Smith, Wixon, Watson), 34
- Diastematomyelia in a geriatric patient, (Wright, Gonzales, Marotta), 59
- Osteoid osteoma in cancellous bone, (Gagnon, Roy, Dumas), 60
- An improved radiographic view of the glenohumeral joint, (Slivka, Resnick), 83
- Etude radiologique de 305 cas de spondylolyse avec ou sans spondylolisthésis, (Léger, Bouchard, Maltais), 86
- Radiographic gradation of lumbosacral dysgenesis, (Azouz, Slomic), 90
- Carpal involvement in inflammatory (erosive) osteoarthritis, (Greenway, Resnick, Weisman, Mink), 95
- Hill-Sachs deformity with an unusually large defect, (Niederer, Cooke), 116
- Angiography of spinal osteoblastoma, (Banna), 118
- Misleading skeletal surveys of prostatic carcinoma, (Lisbona, Palayew), 159
- Ewing's sarcoma in adults, (Lavallée, Lemarbre, Bouchard, Beauregard, Dussault), 223
- Kyste du menisque interne du genou, (Vallée, Bovo, Pagacz), 228
- Iliac marrow biopsy sites in adults, (Cigatay, O'Gara), 230

Teaching

- A modification of the radiology teaching conference, (Imray, Berland, Carrera), 53
- Radiographic exhibits in gross anatomy, (Kirchner, Kaye), 247

Telecommunication

- Radiologic consultation to a remote Canadian hospital using Hermes spacecraft, (Carey, Russell, Johnston, Wilkins), 12

Ultrasound

- Ultrasonic diagnosis of extrafetal masses, (Zaleski, Cooperberg, Kliman), 55
- Physiologic myometrial thickening: a source of confusion, (London, Filly), 57
- Megacystis (prune-belly syndrome): sonographic demonstration in utero, (Cooperberg, Romalis, Wright), 120
- Abdominal biopsy with ultrasound guidance, (Wilson, Rosen), 138
- Hydatidiform mole with co-existent fetus, (Wallace), 156
- Oral water and intravenous glucagon, (Pon, Cooperberg), 173
- Ultrasound findings in small bowel infarction, (Cassoff, Collin), 180
- Abdominal hematomas in unusual locations, (O'Malley, Salem), 182
- Detection of abdominal abscesses, (Filly), 202
- Lymphomatous masses simulating cysts by ultrasonography, (Callen, Marks), 244
